PROFILE

Motivated BSc. CSIT graduate skilled in React, Next.js, TypeScript, and modern UI tools, with additional experience in Python/Django and authentication (OAuth, JWT). Quick learner with strong problem solving abilities, focused on building clean, responsive, and user-friendly interfaces.

TECHNICAL SKILLS

- Frontend: HTML, CSS, JavaScript (ES6+), TypeScript, React.js, Next.js, Tailwind CSS, Shadcn/ui
- State Management: Zustand, Redux
- Backend & Authentication: GraphQL, REST API, Python (Django Framework), Google OAuth, JWT
- Testing & Tools: Jest, React Testing Library, Git/GitHub, Postman
- Tools & Platforms: WordPress, Bootstrap, Adobe Photoshop
- Concepts: Object-Oriented Programming (OOP), Responsive Web Design

PERSONAL SKILLS

Written and Verbal Communication Skills	Attention To Detail
Problem Solving Skills	Time Management
Collaboration and Teamwork	

EXPERIENCE

Frontend Developer Intern, Beetech Solution Pvt. Ltd. 16th Jun 2024 - 16th Sep 2024

- Developed and maintained user interfaces using HTML, CSS, and JavaScript to ensure responsive and visually appealing web applications.
- Worked on WordPress for customizing and optimizing client websites, including theme development and plugin integration.
- Participated in team meetings, and brainstorming sessions to deliver high-quality solutions.

Python Developer Intern, Quickfox Consulting 27th Sep 2024 - 27th Dec 2024

- Contributed to the QuickRPA Project, implementing a download feature in the frontend using React.js.
- Developed backend logic in Django to enable role-based access control, ensuring the functionality was restricted to super admin users.
- Demonstrated strong problem-solving skills and collaboration by integrating the feature with existing project workflows.
- Gained hands-on experience in frontend development, backend logic, and API integration using Python, Django, RPA and React.js.

Frontend Developer Intern, Cognix Insights 22nd Jun 2025 - Present

- Build and maintain Next.js applications with TypeScript, ensuring typesafety and scalability.
- Design modern, responsive UIs using shadcn/ui, Tailwind CSS, and reusable component patterns.
- Integrate GraphQL APIs for data fetching and mutations, optimizing client-server communication.
- Collaborate with backend engineers and product managers to align UI/UX requirements with technical feasibility.
- Enhance user experience through dynamic forms, filter systems, and drag-and-drop field management.
- Work closely with cross-functional teams to deliver features aligned with business goals and user needs.

EDUCATION

Bachelor (B.Sc. CSIT)	10+2
Bhaktapur Multiple Campus	Khwopa Secondary School
Percentage: 80.90%	CGPA: 3.24
Passed Year: 2023	Passed Year: 2019

PROJECTS

Connect Infinity - KIEC

- Developing a Next.js + TypeScript app for managing contacts, users, and branches with reusable components and clean architecture.
- Designed Add Contact form with custom fields, and display contacts by ID, with API integration for dynamic data.
- Integrated GraphQL across multiple parts of the app, Google OAuth, email validation middleware, and RBAC for role-based feature access.
- Continuously enhancing customization, security, and workflow across the platform.

Connect Infinity - NAASA

- Developed a dynamic dashboard section with React, TypeScript, Tailwind CSS, and shadcn/ui, implementing multiple card sections.
- Integrated GraphQL API for fetching and managing data across dashboard components.
- Built interactive ApexCharts for visualizing metrics like calls, and tickets.
- Implemented CRUD operations and integrated REST APIs.

QuickRPA

- Enhanced the project by implementing a download feature on the frontend interface for downloading reports and files.
- Secured the functionality by introducing role-based access control in the backend, allowing only super admin users to access the feature.
- Technologies Used: Python, Django, ReactJS, REST APIs.

Movie Recommendation System

- Developed a movie recommendation system using collaborative filtering in Django Web application for final year project.
- Implemented user based filtering algorithm.
- Utilized Python for data processing and Django for web framework.

Blog Application

- Developed a Restful APIs for backend using Django rest framework.
- Integrated axios to handle HTTP requests between the React frontend and the backend API.
