EXPERIENCE

Junior Frontend Developer (Part-Time / Remote), Neputer Tech Dec 2025 - Present

- Develop and maintain UI components using React, Next.js, Tailwind, and TypeScript.
- Implement designs, fix bugs, and optimize frontend performance.
- Collaborate remotely with senior developers and designers on active projects.

Frontend Developer Intern, Cognix Insights 22nd Jun 2025 - 21st Nov 2025

- Built and maintained scalable Next.js applications with TypeScript, integrating GraphQL APIs for efficient data handling.
- Designed responsive, reusable UIs using shadcn/ui and Tailwind CSS, including dynamic forms, filters, and drag-and-drop features.
- Collaborated with backend engineers and product managers to deliver user-focused features aligned with business goals.

Python Developer Intern, Quickfox Consulting 27th Sep 2024 - 27th Dec 2024

- Implemented a frontend download feature in React.js and integrated backend role-based access control in Django for super admin users.
- Collaborated with the team to seamlessly integrate the feature into existing project workflows.
- Gained hands-on experience in frontend development, backend logic, API integration.

Frontend Developer Intern, Beetech Solution Pvt. Ltd. 16th Jun 2024 - 16th Sep 2024

- Developed and maintained responsive user interfaces using HTML, CSS, and JavaScript.
- Customized and optimized WordPress websites, including theme development and plugin integration.
- Collaborated with the team in meetings and brainstorming sessions to deliver high-quality solutions.

EDUCATION

Bachelor (Bsc CSIT)

Bhaktapur Multiple Campus

Percentage: 80.90%

Passed Year: 2023

10+2

Khwopa Secondary School

CGPA: 3.24

Passed Year: 2019

PROJECTS

Medhey

- Built and optimized the Medhey eCommerce app with a strong focus on responsive design across all devices.
- Implemented a responsive mega menu and a collapsible filter sidebar to improve navigation and mobile usability.
- Fixed critical UI bugs and integrated APIs with SSR to enhance performance and SEO.

Connect Infinity - KIEC

- Developed a Next.js + TypeScript app for managing contacts, users, and branches with reusable components and clean architecture.
- Designed Add Contact form with custom fields, and display contacts by ID, with API integration for dynamic data.
- Integrated GraphQL across multiple parts of the app, Google OAuth, email validation middleware, and RBAC for role-based feature access.
- Continuously enhanced customization, security, and workflow across the platform.

Connect Infinity - NAASA

- Developed a dynamic dashboard section with React, TypeScript, Tailwind CSS, and shadcn/ui,
- implementing multiple card sections.
- Integrated GraphQL API for fetching and managing data across dashboard components.
- Built interactive Apex Charts for visualizing metrics like calls, and tickets.
- Implemented CRUD operations and integrated REST APIs.

QuickRPA

- Enhanced the project by implementing a download feature on the frontend interface for downloading reports and files.
- Secured the functionality by introducing role-based access control in the backend, allowing only super admin users to access the feature.
- Technologies Used: Python, Django, ReactJS, REST APIs.

Movie Recommendation System

- Developed a movie recommendation system using collaborative filtering in django web application for final year project.
- Implemented user based filtering algorithm.
- Utilized Python for data processing and Django for web framework.

Blog Application

- Developed a Restful APIs for backend using Django rest framework.
- Integrated axios to handle HTTP requests between the React frontend and the backend API.
